With their state-of-the-art mobile shredding trucks, they will destroy confidential documents on-site for community residents and the documents are never handled by human hands or viewed by human eyes, thus insuring the highest level of security. ROGERS Service Group is bonded and insured providing a secure solution to meet your document destruction needs!

Secure, Confidential and Free!
"Shred it before you regret it"

Request for Community Support

In 2017-2018 Hunt Engineers completed a comprehensive evaluation of our water system, developed an asset management plan, and identified and quantified potential improvements. Their report identified shortcomings, evaluated various alternatives to address the shortcomings, and provided recommendations for improvements.

The Village of Candor Board of Trustees is applying for the New York State Water Infrastructure Improvement Act (WIIA) grant for help in funding Hunt's recommended improvements to our water infrastructure.

We need your help

To assist the Village in applying for the grant, WIIA has requested that we include letters of community support. For your convenience, a sample letter is available on our website at www.candorvillage.com under Correspondence then News.

Letters must reach us by August 30 to be included.

If you would like us to print the letter for you, contact our office at 607-659-7966.

Thank you!

Brush Pick-up September 10, October 1, and November 5

All brush must be **bundled, wrapped, no more than 6 inches in diameter** and, light enough for one person to lift easily.

This pickup is for **BRUSH ONLY**, no leaves or grass clippings.

Water conservation tip:

Water gardens and outdoor plants early in the morning. You'll need less water, since cooler morning temperatures mean losing less water to evaporation. It's not a great idea to water in the evenings, since this can promote mold growth.

Reminders

- Haven't paid your property taxes yet? Pay today to avoid additional penalties.
- Check out the Village website at www.candorvillage.com

Hydrant Flush October 15

Afterward, you may experience low water pressure or rust in your water.
